1.8) COMMENTS:

literally the best teacher at CSUN, give him a raise & tenure

Definitely a really good teacher. I would attend his class all over again.

. Very helpful and organized. Shows interest in helping me develop my skills further.
Definitely helped me understand production.

Joe is very enthusiastic about the course. He is always encouraging his students to think further on the projects. He is prepared in introducing the objective in every project and is always there to help.

Joe is a great teacher.

Excellent Professor.

I like the fact that there is an interaction project.
The dept needs more web/interaction design courses.

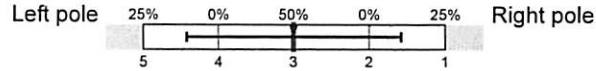

. - loves what he does, good instructor, always encouraging, enthusiastic, pushes his students to do their best, very knowledgeable on his material.

1.8) COMMENTS:

Great class to learn the multiple ways to understand and put together graphic design packaging.

helped me become a better designer and to really explore different avenues of packaging.

Great prof. awesome, understands us as students and designers

That's a weird looking tetris game on the bottom of this page.

Great Perform

Knowledgeable, gives good advice, extremely helpful and is willing to give input to better our skills

I have learned a lot about packaging thanks to Joe.

Joe clearly has an understanding of what he is teaching and is always trying to makes us think out of the box.
Great encouragement!

I enjoy this class very much, and feel I learn a lot from this professor. He is obviously very knowledgeable in the area.

One of the Best I've ever had.

The greatest thing about him is his young persona, which will last longer than sustainable packaging.

He is not a fear grader,
He need to explain the material better,
If a student needs help he should be
able to help, That is why I came to
School to learn not to figure it
out myself. Since I am disable.

Awesome teacher, loves his job, enthusiastic,
good teaching methods, gives helpful criticism.
