Comments:

Bautista is a motivating and inspiring instructor who pushes us to do more than we don't even know we're capable of. It is a nice change and I appreciate his concern and dedication.
Cool and great teacher.
Cool guy!
Very good teacher. The class really teaches you the fine details and packaging concepts. The professor knows what he's doing.
Great teacher. Just needs more points for grading for our projects. Our projects are time-taking and for them to count 10 points -- ridiculous.
Great teacher, very smart and helpful.
I really enjoyed packaging and Joe was great as an instructor. He clearly is passionate. Any feedback is that the licensing/packaging collaboration was weak. ?
Shorten project one and extend project two and three. Awesome teacher.

Great instructor. Truly learned a lot. Very interactive and actually made me want to come to class.
Great teacher!
Great teacher! I thought he did a great job at explaining the class and providing help for all students. I was clueless at first and he made sure I understood the assignments.
Joe Bautista is a great teacher. He explains everything clearly for us to understand.
Knows what he is talking about. Passionate. Loves it!
Mr. Bautista has a different way of teaching something so complex but his way is very effective and works. Bautista helps his students out and gets around to everyone to make sure every student gets that one on one help.
Very patient and understanding.
Very patient. Nice guy!

I thought it was very useful how he implemented knowledge of uses of web to the lesson. I would suggest skipping tables, or focusing on Java (illegible) and programming.

Very strict but very knowledgeable and helpful. He censors nothing and it helps so much to be told straightforward. Great teacher!

Bautista is the man and knows how to teach packaging like no other. Amazing class.
Cool guy, very funny, smart, and very intelligent.
Joe's a great teacher, really good vibes, excellent to be around.
No more sustainable group project. ?
